1. Skin diagnostic **imaging** method and apparatus - Patent EP1433418

... **generating at least two different color images** and at least one ... **successive image** frames of a static object are taken. **Each color** ... the **image, such** as points of color ...
www.freepatentsonline.com/EP1433418.html - [Cached](#)

2. TECHNIQUES FOR **MODIFYING IMAGE** FIELD DATA AS A FUNCTION OF ...

... technique for **modifying** data of an **image, such** ... maintaining **image** correction data for **each** of at least **two color** ... lines 41 of **one such** sensor include **successive** ...
www.faqs.org/patents/app/20080273103 - [Cached](#)

3. Computer calibration of a **color print image** using **successive** ...

... **two-dimensional array** of thumbnail **images such** that **each** printed thumbnail **image** ... at least one ... for **generating pixel data corresponding to each** of the thumbnail **images**
www.patents.com/computer-calibration-a-color-print-image... - [Cached](#)

4. Methods Of **Processing And Displaying Images** And Display ...

... **least one pixel** of an **image source**; and—calculation of the **color** of the **pixel** in the **processed images** (C 3 , C 4), in **such** ... **image generating at least two successive processed images**, in which the colour of at least one pixel in each ...
